TERMS OF SALE

1. This is an unrestricted auction and mail bid sale conducted by El Dorado Coin Galleries, Inc. (EL DORADO). Subject to EL DORADO'S consent, all persons, including consignors, EL DORADO, and its principals may bid on any lot.
2. Each lot will be sold unreserved to the highest bidder at a slight advance over the second highest bid. In the event of floor disputes, the auctioneer's determination will be final. Auctioneer reserves the right to refuse any bid at his sole discretion.
3. All bids are to be per lot; no lot will be broken. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.
4. Auctioneer reserves the right to open the lot at a reasonable price and to withdraw any lot at any time.
5. EL DORADO reserves the right to postpone the auction sale or any session thereof for a reasonable period of time.
6. When a mail bidder submits the high bid on a lot, he will be awarded the lot at a nominal 5 to 10% advance over the second highest bid. Bids are accepted in whole dollars only. All others will be rounded to the nearest dollar. For the bidder's protection no "unlimited" or "buy bids" will be accepted. All bid sheets must be signed; company bids must be submitted with a personal signature. We cannot assume responsibility for any errors made as to lot number or amount on mail bid sheets, so check your bid sheet carefully. Bids by mail, phone or cablegram must be received two (2) days prior to sale date. Phone bids must be confirmed by mail.
7. In the event of tie winning mail bids, the first bid received will be awarded the lot. A mail bid will take precedence over an identical floor bid; a floor bidder must bid higher than the highest mail bid to be awarded any lot.
8. Your bid, which represents your limit that you are willing and able to pay, will be executed with a 10% buyer's charge.
9. Terms of this sale are strictly CASH in U.S. Funds payable through a bank in the United States. Lots must be paid for upon receipt of invoice or delivery. Delivery of lots at the sale will be contingent upon prior credit arrangements or payment of bill in full either by cash or check (no credit cards will be accepted).
10. Floor bidders and mail bidders who have not established credit with EL DORADO must furnish satisfactory credit references or deposit at least twenty-five percent (25%) of their total bids. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
11. Postage, insurance or registration fees will be added to the invoice to successful bidder when mailing lots is required.
12. All lots delivered in New York are subject to New York sales tax laws and all lots delivered in Texas are subject to Texas sales tax laws. Individuals purchasing lots for resale must submit an exemption certificate signed by the purchaser or his agent and recognized by the State of New York and the State of Texas, with their current seller's permit number, or be subject to the sales tax.
13. In the event a successful bidder fails to make payment when due, EL DORADO reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
14. If an auction invoice is not paid for in full when due per invoice terms, the unpaid balance will bear interest at the highest rate permitted by law until it is paid. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other collection costs incurred by EL DORADO.
15. Title to any lot remains with CONSIGNOR until the lot is paid for in full. EL DORADO reserves the right to require payment in full before delivering any lot to the successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer.
16. All photographs in this catalogue are of the actual item being sold, but may not be the actual size.
17. All items offered in this catalogue are guaranteed to be genuine, unless otherwise noted. Claims to the contrary must be made in writing within (5) days after receipt of merchandise. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. Late remittance constitutes just cause for revocation of all return privileges for any reason.
18. This is not an approval sale. All lots sold to the highest bidder as determined by Auctioneer are final. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing since NO LOT PURCHASED BY A FLOOR BIDDER MAY BE RETURNED, including those lots where the bidder is acting as an agent for another, or to mail bidders who have examined the lot.
19. Bids will not be accepted from those persons under eighteen (18) years of age without a parent's written consent which acknowledges the terms and conditions of this sale.
20. By bidding in this sale, bidder personally guarantees payment. If a corporation is a bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
21. Neither EL DORADO or the Auctioneer shall be responsible for incidental or consequential damages arising out of any failure of the terms and conditions of the auction and sale or the conduct thereof and in no event shall liability for any such failure exceed the purchase price paid.
22. Bidding in this sale constitutes acceptance by the bidder of all the foregoing terms and conditions of sale.

IMPORTANT NOTES FOR MAIL BIDDERS

Bidding numbers are assigned in sequence as Mail Bid Sheets are received. The bids are then entered in a Master Bid Book like this:

Your Bid Sheet

| Bidder No. 749 | |
|----------------|---------|
| Lot | Amount |
| 658 | \$ 1000 |

Master Bid Book entry

| Lot | \$ 350 | \$ 500 | \$ 1000 | \$ 550 |
|-----|--------|--------|---------|--------|
| 658 | 641 | 1078 | 749 | |

Opening bid: established before auction starts by adding 5-10% to second highest mail bid

Your No. and bid
Second highest mail bid

Before you enter your bids, please be sure to read the TERMS OF SALE very carefully. If you have any questions about bids you wish to submit, please call us. We appreciate your participation in this and future sales.

If there are no floor bids to better the opening bid, then you, as high mail bidder, are awarded the lot at opening bid price. If there is floor bidding, we act as your agent and bid competitively for you up to your mail bid amount if necessary. Your bid should be the absolute maximum that you would be willing to pay for that lot. Following the above procedure, we will always try to obtain the lot for you as inexpensively as possible; you will not necessarily have to pay the full amount of your bid.

AVIS IMPORTANT CONCERNANT LES OFFRES PAR CORRESPONDANCE

Les offres par correspondance seront numérotées selon leur date d'arrivée et seront inscrites dans notre livre de la manière suivante:

Nous vous prions de lire attentivement les CONDITIONS DE VENTE avant de remplir l'ordre d'achat. Nous vous remercions pour votre participation à notre vente aux enchères.

Si, pendant la vente aux enchères, il n'y a pas d'autres offres, le lot vous sera adjugé au prix de départ. Si par contre, un miseur dans la salle surenchérit, nous nous chargeons de défendre vos intérêts jusqu'à votre limite. Votre offre doit toujours représenter le maximum que vous payeriez pour le lot. Ce système permet à chacun d'augmenter ses chances en misant un prix élevé, sans avoir nécessairement à payer ce prix.

EL DORADO COIN GALLERIES, INC. offers exclusive and diversified professional services in numismatics including the international collector market.

- *298 -1 1/2 Rouble 1836, (so called "Family Rouble"), this is the type with the medalist full name below truncation, (see footnote below end of both listings for different types). Sev-3180 Dav-286A, Becker Comm. Coins #2. This coin represents a unique opportunity for the advanced collector of Russian Coinage as well as collectors of World Commemorative Coinage to add a truly museum piece to their collection. Only 50 Minted, rainbow toned, UNC with friction, excessively Rare. 20,000-30,000

The type hereby offered, is about the same rarity as 1835 Family Rouble with circles around the children's heads on the reverse, and which Galerie des Monnaies sold a specimen in their October 1974 sale in Geneve, for SFR. 58,000 (about \$29,000.00). It is likely that with the escalating interest for Russian numismatics and a sign of improvement of the market conditions, this coin can now be obtained at a price which would seem to be nominal in years to come.

Through the combination of our auction catalogues, our Numismatic Review, the acceptance of consignments and other numismatic services which we are planning, we hope to have the vehicle tailored for, you, THE COLLECTOR. Please come aboard and join us on our numismatic journey!

299

*299 -1 1/2 Rouble 1836 (so called "Family Rouble"), type without the medalist name or initials on neck truncation, Sev-3182 (of the highest degree of rarity), H-340, Dav-286C, missing in Petrov, Schubert and Michailovich. EL DORADO COIN GALLERIES, with pride in their first auction catalogue, bring to you one of the kings of Russian numismatics. Almost as rare as the Constantine Rouble, this coin represents a unique opportunity for the collector of Russian Coins or Commemorative World Coins. Of highest rarity, (only 3 known). With an obverse, toned, AU, Proof-like (rainbow coloring). The reverse not quite as toned (from storing face down in a cabinet). Still, practically UNC, only impaired by friction and minute markings at 3 o'clock, in inner circle surrounding Queen. This prestigious and pedigree specimen is estimated at 40,000-50,000

Previous recordings of the same three coins offered at the same time, is to be found only at: The Hermitage, Leningrad and the Adolph Hess 1931 sales in Frankfurt (Auction 204, nr. 279, "Duplicates from Russian Museums"). This specimen hereby offered, comes from the well known Hess sale of 1913, where the collection of the Count Tolstoi was dispersed. It then sold for 1,125 gold marks, an incredible price for a coin in those days.

The celebrated "Family Roubles", of a design inspired from the Bavarian 1828 "Blessings from Heaven" Taler, are cut by medalist Paul Utkin, die-sinker and mint-engraver at St. Petersburg and also a pupil of Count Feodor Tolstoi.

These coins were struck to commemorate the royal family; Czar Nicholas I is featured on the obverse surrounded with the lettering "1 1/2 Roubles - 10 Zlot 1835 (or 1836)" and on the center reverse is the head of Tsaritsa Alexandra Fedorovna surrounded by her seven children. The edge is reeded.

There are three different types of the 1836 coins:
 (Sev-3180) One has the full name of the engraver under truncation.
 (Sev-3181) The second has the initial of the engraver only.
 (Sev-3182) The third has no name, and no initials.
 (Sev-3114) There was also one type struck in 1835 with the full name of the medalist under truncation, on the obverse, encircling the heads of the seven Grand Duchesses and Grand Dukes.

EL DORADO COIN GALLERIES, INC. also provides comprehensive appraisals and valuations.

EL DORADO

Coin Galleries, Inc.

Coins, Medals and Paper Money share their diversity of designs and symbols in commemoration of events, portrayal of Kings, Emperors, Presidents and National Heroes. They truly function as Windows to the World!

The earliest coins were struck about 650 BC in Asia Minor. The use of coinage as a medium of exchange then became popular with the Greek colonies, whose classical artistry set a standard consistently difficult for the future civilizations to match. "Hammered" coins prevailed until the 16th century when machinery finally perfected the "Milled" coin as we know it today.

Coinage has been of inestimable value in tracing the development of past civilizations, their historical rises and falls often being directly related to their economic monetary systems.

The present collecting market is no longer the prerogative of the very rich. There are several million collectors, at least 5,000 dealers and over 300 important coin auctions each year. The volume of the trade exceeds 1/2 Billion U.S. dollars per annum. This fascinating hobby is the oldest established collectors market in the world. The number of collectors increases annually and exerts constant demand upon these limited, portable reminders of the past!

We at **EL DORADO** Coin Galleries, Inc. are aware of this and have assembled a staff, which combined has a numismatic and numismatic related management knowledge of over 100 years. We have done this in order to best serve our customers throughout the globe, whether their needs are in the rarest and highest priced numismatic material down to assisting the beginner who may be forming the nucleus of a very limited and humble collection.

EL DORADO COIN GALLERIES, INC., a new and vibrant collector-oriented auction house, is pleased to announce Mr. Alcedo (Al) Almanzar, famous author and internationally recognized Numismatist, has been retained by this newly born numismatic firm as Managing Director. Mr. Almanzar brings a vast storehouse of numismatic knowledge and experience to our endeavors of serving the many individuals that constitute our fraternity. His twenty-three years in numismatics will serve to guide us on our path of full customer satisfaction and individual attention. Al's proven format of diversified auction catalogs, painstaking diversity of collectible offerings, excellent photography, and quality service will be mirrored by our own operational

policies. The firm's intention, is to make Texas a true gateway to the coins of the world. The firm will deal in world coins, paper money and medals, placing emphasis on the following areas:

- 1) Mexico and Latin America in General
- 2) Coins of the British World
- 3) Coinage of Poland and Russia
- 4) Scandinavian Coinage

However, the collector will be surprised and pleased to encounter "something for everyone" throughout our offerings -- whether it be Africa, Asia or Australia, and so on. Not only has Mr. Almanzar been retained to manage this firm, he has put together a staff whose combined numismatic and numismatic related management knowlege numbers well over 100 years.

Watch us in the years to come! Floor auctions will be scheduled, convention visits are being planned, and we will be offering numismatic material ranging from as little as \$5.00 up to rarities valued in the thousands.

For the visitor, we will be available in one of San Antonio's most beautiful landmarks, the STAACKE-STEVENS BUILDING. Originally built in 1894 and completely renovated to its old splendour. Our store is located on the first floor, while our mail order operation is located on the second floor (with sufficient space for private viewing) and of course at your disposal. As we say in San Antonio, "MI CASA ES SU CASA".

Mr. Bernth Ahlstroem has well over 30 years of numismatic experience and is internationally recognized by thousands of collectors. He has primarily been active throughout Europe - based in Switzerland, and has always provided a service that is international in scope. Mr. Ahlstroem communicates fluently in more than six languages, thus providing a considerable advantage in dealing and conducting auctions on a multi-national level. His start in numismatics dates back to 1953, and his credentials include memberships in IAPN, ANA, ANS, Royal Numismatic Society, Swiss Numismatic Society, plus a dozen or so other worldwide numismatic organizations.

BRAZIL - DECORATION

- *517 -Imperial Order of the Rose. Handsome gold medallion of 54mm, with 6-pointed, ball-tipped, white-enamelled star superimposed on wreath of pink roses with green leaves. This specimen is not the variety with imperial crown surmounted, but rather with pin for wearing. Lenard L. Babin in his book "SOUTH AMERICAN DECORATIONS AND WAR MEDALS" lists this medal on page 70 as follows:

IMPERIAL ORDER OF THE ROSE. Founded by Emperor Dom Pedro I. on October 17, 1829 in commemoration of his second marriage—with the Princess Amalie-Augusta-Eugenie-Napoleon of Leuchtenberg and Eichstadt, daughter of Eugene de Beauharnais. The order was conferred for civil and military merit and consisted of six classes. The decoration is a six-pointed ball-tipped white-enamelled star, superimposed on a wreath of pink roses with green leaves, and by an imperial crown. In the obverse gold medallion are the intertwined initials P. A. (Pedro and Amelia) encircled by a blue band inscribed AMOR E FIDELIDADE. On the reverse medallion is 18²/₈29, (the date of their marriage, second of August, 1829) encircled by a blue band inscribed PEDRO E AMELIA and a love knot of gold ribbon. The suspension ribbon is light pink, with a narrow white stripe each side. The decorations of the two lowest grades (smaller in size) do not have the crown above.

By a decree of March 22, 1890, of General Manuel Deodora de Fonseca, Chief of the Provisional Government of the United States of Brazil, all honorary Orders of Chivalry were abolished, except the Order of Avis and the Order of the Southern Cross.

Again, this is the variety without the crown on top. PRACTICALLY AS ISSUED & IN ORIGINAL CASE. RR.

COLOMBIA - CUNDINAMARCA

- *566 -C111 1/2 Real 1821. This is a very special offering inasmuch as the illustrated coin in Krause is barely VG and holed. Unfortunately this piece was not available for illustration at the time of publication of "Coins of Colombia" by Almanzar/Seppa. The coin offered herein approximates EF condition; however, it has three minor solder spots at 11, 12, and 1 o'clock in rim. Its value is highly underestimated in Krause. Should bring. 300-500
- *567 -C112 1 Real 1821. This (type) coin is valued at \$100 in VF in Krause; however, cataloguer also believes this estimation to be below market. This specimen is EF & should not fail to bring. 250-350

DOMINICAN REPUBLIC - PATTERNS

- *586 -Silver proof pattern for gold "ONZA" 1980. One of 20 reportedly struck and numbered (#16) on the rim. (There were also ten numbered specimens struck in gold.) The Dominican Republic has one of the largest gold mines in the world and these patterns were designed for consideration of the issuance of a gold Troy Onza to be called "Enriquillo". (Please read history below.) 38mm, thickness 3mm, reeded edge, PROOF. 400-500

The DOMINICAN REPUBLIC occupies the Eastern two-thirds of the Island of Hispaniola, which served as a base for Spanish exploration of the New World. As a child, Enriquillo was taken to a Franciscan convent by Father Las Casas. He learned to read and write and was baptized by the Spanish priests. Enraged by the increasing abuses of the enslaved Indians, Enriquillo presented his complaints to the "Real Audencia". He was given a letter of favor, but it only served to aggravate the oppression of the Indians by the Spanish landowners. Convinced in 1519 that the living conditions of his people could only get worse, he began to organize a rebellion by the Indians. He instructed his people to unite in the mountainous region of Bahoruco with stolen Spanish arms.

ENRIQUILLO organized the men into small bands which stayed in the mountains and avoided close combat. Guards were placed in strategic points. The old, the women and children were hidden in safe places. In 1533 Enriquillo signed a peace treaty with a special envoy of King Charles V which granted liberty to the Indians. The Spanish realized that it was the only way to stop the Rebellion.

Having been educated by the Spaniards, Enriquillo had wide knowledge of the use of guerilla warfare and Spanish arms and their tactics. He stood out among rebellious Indian leaders during the Spanish Conquest of Latin America.

*611 -(E110 variety) Y7 1 Peso 1859 (plain), rare unlisted muled type. The Carrera Peso of 1859 (plain date) exists in two major varieties, one of which has never been published in Krause. The first variety has the common obverse with no period below "E" and "A" of the "PE" and "RA" in legend and, the second variety, the one we are offering, has the very rare obverse with periods below "E" and "A". This was in fact the obverse adopted for the rare 1859R. This variety is so rare that we have only encountered two pieces recorded. PERU - PHILIP II (1556-1598)

- *657 -Rincon 1/2 Real (1568). The coin hereby offered, is extremely rare and one of few known Rincon 1/2 Reales. For example, Gutttag owned the 1/4 Real and the 8 Reales specimens of the set. The coin hereby offered does not have any sign of clipping and it is 20mm in size as opposed to the more illustrated specimens which range from 12mm through 18mm - small in size, but great in history and rarity. (Part of the first set of coins designed for the Lima mint.) We are hereby offering this coin as perhaps, the nicest one extant. In VF condition, with very minor attempted puncture in obverse with large unclipped planchet. Truly a once in a lifetime opportunity to own one of the rarest little Spanish colonial coins on earth. We expect bids to oscillate between 1500-2500

The above coin, along with the 1/4 Real, 1 Real, 2 Reales, 4 Reales and 8 Reales, were designed by the first assayer of the Lima mint (who was also the first assayer of the Mexico and Potosi mints) - Alonso Del Rincon hence the name "Monedas Rincon" (Rincon coins). The coins were struck at the first mint of Lima before the mint was transferred by the administrators of Lope de Castro to Potosi.

Based on articles and catalogue offerings, several books, matching photos, etc., as follows - Henry Christensen, Inc., Superior Coin Company and Schulman sales; an article by Sr. Heinz Gerdt on page 32 of the June 1955 issue of the "Sociedad Numismatica del Peru" publication, plus an offering of a complete set up to the 4 Reales by Almanzar's Coins of the World, in August 31, 1970 auction. The cataloguer suspects that these extremely rare coins rank in rarity as follows:

- | | |
|---|---|
| (1) 8 Reales Rincon - About 4 or so known | (4) 1/2 Real Rincon - About 7-10 Known |
| (2) 1/4 Real Rincon - About 5 known | (5) 1 Real Rincon - About 20-30 known |
| (3) 4 Reales Rincon - About 6-9 known | (6) 2 Reales Rincon - About 30-50 known |

PERU - CHARLES II (1665-1700)

- *658 -Calb-268 8 Reales 1693V, quite detailed, VF, salvaged, nice coin. 300-400

PERU - CHARLES III (1760-1788)

- *659 -C54 FR26 CC11477 8 Escudos 1762JM (Lima). This coin is of a two-year type in exceptional condition. UNC with luster, some friction. Impaired only by minor planchet defect at top of bust and below "I" of "HISPAN". The reverse has a couple of adjustment marks of little consequence; however, this coin has original luster throughout and should be considered a great rarity in this grade. 6000-8000

VENEZUELA (CARACAS) - PERIOD I (1802-1830)

- 741 -3 Coins: C2 1/4 Real 1821, EF; 1817, EF; another 1817 die variety with arabic counter-stamp, also EF. 150-200
- *742 -C22, Stohr-4, 1/4 Real 1812. Any advanced collector must be very aware of the extreme rarity of this coin as, even a search throughout Craig's and NASCA's catalogs (which are known to have offered the largest selection of Venezuelan coins in recent years) does not turn up this offering. This includes Craig's extensive listing of November 21, 1983 and March 31, 1982. Cataloguer only knows of one other piece extant which was part of the ex-Jose Toribio Medina collection. FINE+. 1500-2000
- *743 -C31 Stohr-Var-C, 1/4 Real 1821, variety with 8 long rays and 24 short rays in obverse. The 1821 shows to be many times rarer than the 1822 of the same type. VF, with tiny attempted puncture at 12 o'clock in obverse 1000-1500
- *744 -C31 Stohr-Var-13a, 1/4 Real 1822, obverse with medium "bastoncitos" (small canes) and 16 short rays. Nearly EF. 400-600
- *745 -(last line)
photo, that the center of the sun is also smaller by about 1½mm. This specimen is EF 500-800
- *746 -1/4 Real 1822. Note that in actuality, this coin can be considered a different type, because there is no division in "1/4" and the 38 sun rays forming a large circumference, making it an unlisted type. At least VF, crude 700-1000
- *747 -C34 1/4 Real 1829, Abt EF, some weakness in date. 200-300
- *748 -C34 1/4 Real 1829. This specimen is EF, obverse quite nice, but reverse is somewhat crude due to double striking. 200-300
- *749 -C34 1/4 Real 1830, obverse with short leaves as per Stohr-Reverse 14-Variety A. Reverse: Period after "S". Very crude, VF, with almost 1/3 of planchet practically blank. 150-250
- *750 -1/4 Real 1830. Appears to be Stohr-14-Variety-C with long leaves in obverse. Reverse is quite different from previous coin as it appears to have inner and outer circles of dots around the laurel. Almost a type by itself, similar to C34. Practically EF. 200-300

- *751 -C25.1, Stohr-5, 1/2 Real. Obv: The historical "19" surrounded by seven six-pointed stars. Rev: The value in center with inscription around border "CARACAS ANO 2º DE LA REP". This coin was struck by the patriots in 1812. Coin is quite rare and the cataloguer knows of only two previous offerings. This coin is Abt. VF, holed. However, with a coin of this RARITY, the hole does not detract a great deal from its value 5000-8000
- *752 -C26 Stohr-6, 1 Real, Year 2 (1812). Another specimen issued by the patriots in 1812. Obv: The historical "19" surrounded by seven six-pointed stars. Rev: The value in center with the inscription around border "CARACAS ANO 2º DE LA REP^{CA}". Again, an EXTREMELY RARE coin of which cataloguer has found only one previous offering in the February 15, 1975 catalog by Cordry & Craig International. The coin then was offered in VF+ at \$1500; however, throughout the last nine years, the prices of Venezuelan coins have gone up in leaps and bounds. In VF with minor planchet defects in rim, the current market should justify an estimate of 6000-9000
- *753 -C5 Stohr-10, 1 Real, 1818. This is quite a rare and seldom offered type, with the proper Caracas style. We found one listing of the 1820 date of this type by Freeman Craig & Company's May 8, 1984 auction, in VF condition, estimated at \$4,000-\$5,000. We are offering this EXTREMELY RARE coin, in Abt. VF condition at an estimate of only 2500-3500
- *754 -C6.1, Stohr-11, 2 Reales 1818. This coin is struck over a planchet of a Spanish 2 Reales of Ferdinand VII, where the outline of shield and legend of the original coin is visible throughout. Practically AS STRUCK for wear with some original luster 400-700

- *759 -4 Reales 1820. Similar toStohr-12-Var-C. This coin may vary however, inasmuch as the sea waves are in five-lines (3 continuous lines and 2 short broken lines). Also, the word "CARACAS" is not underlined, plus ordinal is reversed "7", making it a possibly unrecorded variety. The degree of rarity as a type, is well-known to advanced collectors and the price in Krause&Mishler only reflects a portion of its true value. This specimen now offered can be easily graded as Abt.EF with tiny ding at 2 o'clock in reverse 4000-5000

Research does not turn-up any record of previous sale of this coin in proof, nor is it mentioned by Stohr. Cataloguer suspects that if not "UNIQUE", it is at most three to four extant 2000-3000
- *771 -Y14 Stohr-34, 20 Centavos (Dos Reales) 1876. This coin is only a two-year type and the rarest of the two. For this type, Krause's prices only begin to indicate its value. The coin we are offering consigned as UNC, is quite nice, but it would be more accurately be described as a nice AU-UNC. RR, particularly in this high grade. 800-1100
- *772 -Y16 Stohr-36, 1 Venezolano (Fuerte) 1876A. Obv: Head of Bolivar facing to the left with the legend "BOLIVAR LIBERTADOR". In exergue the mintmark, anchor, bee and "A", together with the name "BARRE". Rev: Coat of Arms of Venezuela with branches, ribbons, including the inscriptions "INDEPENDENCIA — 5 DE JULIO 1811 — DIOS Y FEDON — 28 DE MARZO 1864 — LIBERTAD". Surrounding the field are the legend "ESTADOS UNIDOS DE VENEZUELA", the weight, the date, and the fineness, all separated by five-pointed stars. The coin, first designed in 1874, (please refer to our other great rarity, Lot #824, the 1 Venezolano 1874 Proof Essai) was finally adopted for circulation and 35,000 were struck. Venezuela was known to be a nation of very limited means before it struck oil in the 20th Century, and all of its early coins because of low mintages were highly circulated or melted. They are found in small quantities and usually are quite worn. This is particularly true in the case of the 1 Venezolano hereby offered. The known uncirculated specimens probably are limited to a baker's dozen. These facts are well-known throughout the hobby and ownership of a high-grade Venezolano has long been a cherished dream amongst the advanced Latin American Pesos collector. Our offering is not just an Uncirculated Specimen, but a PROOF coin which is not only unlisted by Stohr, but there also seems to be no auction activity recorded. Any further numismatic adjectives, which would define the extreme rarity of this important coin, fail to adequately describe this treasure. Our numismatic fraternity is cognizant of its importance and we proudly offer another "king" in numismatics. 5 BOLIVARES (FUERTE) 1876A, CHOICE PROOF WITH PLEASANT GOLD TONES. 25,000-35,000

VENEZUELA (REPUBLIC) - PERIOD III (1879-1974)

| | | |
|------|--|------------|
| *773 | -Y30 Stohr-68, 12 1/2 Centavos 1944, Choice BU, rare in this grade | 200-400 |
| *774 | -Y39 Stohr-80, 12 1/2 Centimos 1969, Copper-Nickel issue. This coin was not released for general circulation and is known to be quite Rare | 200-300 |
| *775 | -Y19 Stohr-40, 1/5 Bolivar (20 Centimos) 1879, a 1-year type. Its rarity is somewhat indicated by the price in Krause's catalog. EF, RRR. | 1600-2100 |
| *776 | -Y20 Stohr-60, 1/4 Bolivar (25 Centimos) 1901. Early dates of this type are all extremely rare and in this high grade they can only be found in a collection of this magnitude, Choice BU | 700-1000 |
| *777 | -Y20 Stohr-60, 1/4 Bolivar (25 Centimos) 1912. Another early date, Choice BU, again quite rare in this condition. | 350-500 |
| *778 | -Y21 Stohr-46, 1/2 Bolivar (50 Centimos) 1886, toned AU, RR in this grade. | 300-500 |
| *779 | -Y21 Stohr-46, 1/2 Bolivar (50 Centimos) 1889. This is an unusual offering of the key date which is EXTREMELY RARE in any grade and missing from nearly all advanced specialized collections of Venezuelan coins. The coin is RRRRR even with a VG reverse to Abt FINE obverse. The less advanced collector will be shocked at this estimated evaluation; however, the knowledgeable collector is aware that this is the rarest date of all modern coins of Venezuela and therefore "THE KEY" to completing a date collection. Note also that this is the only unpriced modern Venezuelan coin in Krause. We expect this coin could bring, regardless of its condition of VG/Abt FINE, the record price for any minor Latin American coin. | 7000-10000 |
| *780 | -Y21 Stohr-46, 1/2 Bolivar (50 Centimos) 1887. The rarity of this date is reflected by the price in Krause. Condition of this piece is UNC. RRR | 1200-1700 |
| *781 | -Y21 Stohr-46, 1/2 Bolivar (50 Centimos) 1887. AU, RRR. | 600-900 |
| *782 | -Y21 Stohr-53, 1/2 Bolivar (50 Centimos) 1893. Obv AU, Rev UNC. | 400-600 |
| *783 | -Y21 Stohr 53, 1/2 Bolivar (50 Centimos) another specimen dated 1893. Obv AU with some friction and minute hairline scratch in neck, Rev toned AU. | 300-500 |
| *784 | -Y21 Stohr-61, 1/2 Bolivar (50 Centimos) 1900 without mintmark, AU, toned. | 500-750 |

| | | |
|------|---|-----------|
| *785 | -Y21 Stohr-61, 1/2 Bolivar (50 Centimos) 1912, UNC, friction | 400-600 |
| *786 | -Y21 Stohr-61, 1/2 Bolivar (50 Centimos) 1912, impaired by minute dings at about 4 and 5 o'clock in reverse and some friction, otherwise UNC | 300-500 |
| *787 | -Y22 Stohr-47, Bolivar 1900, Proof-like toned AU, quite rare in this grade | 500-800 |
| *788 | -Y22 Stohr-62, Bolivar 1911, Toned UNC, outstanding condition. | 500-700 |
| *789 | -Y22 Stohr-62, Bolivar 1911, AU-UNC, only impaired by friction in obverse but quite choice reverse | 400-500 |
| *790 | -Y22 Stohr-62, Bolivar 1911, Toned AU. | 250-350 |
| *791 | -Y23 Stohr-43, 2 Bolivares 1879. This piece was struck at the Brussels Mint and therefore, Stohr assigns this coin as a one-year type. VF+, perhaps EF in obverse, but reverse is too weak to deserve the same grade. Still quite rare in this state of preservation | 800-1200 |
| *792 | -Y23 Stohr-48, 2 Bolivares 1886, open "6". Stohr assigns a new number to this type starting with 1894 to 1912 as all of these coins were struck at the Caracas mint. Abt VF, quite nice obverse and free of heavy dings. Quite scarce in this grade | 1200-1600 |
| *793 | -Y23 Stohr-48, 2 Bolivares 1887. High grades of the 2 Bolivares are practically unheard of - this one is of the smaller mintages of the early dates. An undisputable AU with traces of luster on reverse | 1500-2000 |
| *794 | -Y23 Stohr-63, 2 Bolivares 1888, low mintage issue. VF in grade, quite scarce as such | 700-1000 |
| *795 | -Y23 Stohr-48, 2 Bolivares 1889. A date which all cataloguers convened to price as being the key date of the series. RR, Abt. VF. | 1000-1500 |
| *796 | -Y23 Stohr-63, 2 Bolivares 1900. Early type 2 Bolivares are quite rare in high grade. This one would be UNC except for friction and 3 minute dings at 10 and 12 o'clock areas in reverse and ding at 7 o'clock in obverse. Coin correctly grades as nice AU with luster and we expect it to bring between | 700-1000 |

- *797 -Y23 Stohr-63, 2 Bolivares 1894. Stohr refers to it as a one-year type. Toned EF+, perhaps AU, RR particularly in this grade 500-750
- *798 -Y23 Stohr-63, 2 Bolivares 1905. A date which rarity in this grade has gone unnoticed in catalogs, but is truly a 20th Century treasure of Venezuelan numismatics. RRR, at least EF+, would grade AU if it was not for concaveness in reverse. 2000-3000
- *799 -Y23 Stohr-63, 2 Bolivares 1911, AU, light toning. 200-350
- *800 -Y23 Stohr-63, 2 Bolivares 1911, graded conservatively by consignor as EF+ 125-175
- 801 -Y23 Stohr-63, 2 Bolivares 1911, graded conservatively by consignor as EF+ 125-175
- *802 -Y24 Stohr-49, 5 Bolivares 1886. A true rarity in high grade of AU with rainbow toning and minor obverse hairline scratches of little consequence. RRR 2000-3000
- *803 -Y24 Stohr-49, 5 Bolivares 1886. Another specimen in at least EF condition. 1500-2000
- *804 -Y24 Stohr-49, 5 Bolivares 1887. Even rarer than the 1886, catalogued by its previous owner as AU, but perhaps this grade is too optimistic. Cataloguer says a nice EF with rainbow toning would be more accurate. RRR 3000-4000
- *805 -Y24 Stohr-49, 5 Bolivares 1889, EF, nicely toned, RRR 1600-2100

- *824 -Stohr-E-34, 1 Venezolano 1874 Proof Essai, silver, 37mm. A design adopted for regular coinage in 1876 (please refer to our other great rarity, Lot #772, the 5 Bolivares 1876). Obv: Head of Bolivar facing to the left with legend "BOLIVAR LIBERTADOR". In exergue "ESSAI" and "BARRE" below truncation. Rev: Coat of Arms of Venezuela with branches, ribbons, including the inscription "INDEPENDENCIA - 5 DE JULIO 1811 - DIOS Y FEDON 13 DE ABRIL 1864 - LIBERTAD". Surrounding the field is the legend "ESTADOS UNIDOS DE VENEZUELA", the weight, the date, and the fineness, all separated by five-pointed stars. This deservedly handsome effigy of the great "LIBERATOR" executed by the well-known master engraver, Barre, is in keeping with the fame of the great patriot who influenced history with his sword as well as his pen, in places which became inscribed forever in the history of the struggle for liberation of the Americas: such as, Boyaca, Carabobo, Bombana, Pasto and many others. The cataloguer believes that three or four specimens of this pattern exist. Stohr, in his book, recalls several book listings and cites repositories in the Banco Central de Venezuela and the Banco Miranda. With all of the laurels due this great Liberator, plus the extreme rarity of this beautifully executed pattern, we feel it proper to label this specimen as one of the "KINGS" of this auction. In an incredible state of preservation, CHOICE PROOF WITH GOLDEN AND IRIDESCENT TONING. This coin should justifiably bring. 25,000-35,000

- *829 -10 Bolivares, Silver Essai for the official Y45 issue. Silver PROOF with traces of handling in reverse. No mintage available to the cataloguer; however, must be seldom offered and we suspect that only a dozen or so were struck, so we truly feel that the following estimate is low. 3000-5000
- *830 -Obverse and Reverse of die trial of 25 Bolivares (Gold Issue). Struck in COPPER, 1875. The rarity of this set of die trials does not need to be indicated with a barrage of words. We are sure that any specialized collector is aware of its EXTREME RARITY. The pair in AU is estimated at 2000-3000

Well, here we are - about to finish publishing our very first auction catalogue, a real "labor of love" for those of us that have chosen this profession. However, it cannot be denied that it involves hard work, and as human beings, even at the final moment, we still wonder: Did we photograph the necessary number of items? Were we explicit enough in describing our major offerings? Are our customers, as well as our consignors, getting a fair shake with our estimates? And so on, and so on. One is never certain. However, you as the customer, will be the best judge. We hope that your bids, whether through the mail, or by your attendance in New York City, will ensure this to be a success.

As you read through this catalogue, you will note an extensive selection of rare and scarce numismatic items from throughout the entire world. Our aim is to set an international standard of excellence through the manner in which we have prepared our catalogue. However, we would not want to give the impression that we will only be offering very rare coins. We will not forget that those lesser coins often labeled as common, are components of great collections. Therefore, we are now in the midst of preparing our next auction catalogue, in which we will strive to offer "something-for-everyone". In fact, this catalogue (soon to be released) will feature well over 7,000 lots of worldwide coinage and paper money, at price levels averaging from \$5-\$100. Additionally, last month we released our first "NUMISMATIC REVIEW" on coins. Future price lists will include, from time to time, medals, coins, and paper money at fixed prices, at all price ranges and rarity levels. Through the combination of these mediums, including acceptance of consignments for future auctions, we hope to have the vehicle tailored for you, THE COLLECTOR. Please come aboard, and join us on our numismatic journey.

Whether you will bid on one or many lots, you will have made our effort worthwhile and we will be grateful. We wish you happy hunting. — THE STAFF

The drama and importance of Simon Bolivar's career, as the "LIBERATOR", has added significance in today's world because of the turmoil that now engulfs most Latin American countries. His struggle against the imposing Monarchy of Spain was directed primarily to the establishment of a "Pan-American Congress" that would someday structure a Latin America -- composed of countries together, striving to determine a common destiny. He was a dreamer that liberated those that dared not to dream!

Bolivar was a product of the upper class where one would expect to find the majority of ardent admirers of the Monarchy. However, this was not the case. In fact, he recruited from that source, his most able officers, who led the armies of patriots to victory. He was well educated and a widower by age 20. It was during a trip to Europe, to get over the despair of his wife's death, that he vowed to free his country.

While visiting Rome, in August of 1805, he dropped to his knees and proclaimed, "I swear before you, I swear by the God of my forefathers, I swear by my native country that I shall never allow my hands to be idle nor my soul to rest until I have broken these shackles which chain us to Spain!" It took him twenty years to accomplish his vow -- and he lived to hear the thunder in his ears from the cheers of millions of his fellow men to whom he brought freedom.

Venezuela, his native country, was the first to take the step in the direction of South American independence. That initial step was promptly followed by many of the capitols in the Spanish Colonies. The flame

of freedom had been ignited! But, it was from Cartagena in Nueva Granada that Simon Bolivar was to initiate his quest.

At Cartagena he roused the citizenry with a manifesto proclaiming - liberty to all! His first conquest was at a small village named "TENERIFE" and entered triumphantly in CARACAS on August 6, 1813. Caracas gave him a thunderous welcome and for the first time Bolivar heard the appellation that was to be his from that day - "Viva el Libertador!" But dark clouds were soon to gather and Bolivar suffered a major defeat at La Puerta. His forces were routed and he was forced to return to Cartagena on September 25, 1814, the very place where he had started. He later sailed into exile on May 8, 1815 and landed in Jamaica.

It was to be, that from Haiti on May 16, 1816 Simon Bolivar and a small band of men (about 250) landed his Flotilla on the small island of Margarita. At Asuncion, a little town on the island, Bolivar was proclaimed Supreme Chief of Venezuela. From this early beginning the liberation process again took form. The first incursion, to free Venezuela, was to be an attack on the Spaniards at Bogota! On May

26, 1819 Bolivar and his men began their great march, from the village of Mantecal. The battles were hard fought and the cost of human lives was horrendous, but at last the motley squads of dirty and unkempt men arrived in Bogota. For this feat, Bolivar was named President of Colombia - the name given to an entirely new and vast republic. It comprised Venezuela, New Granada and the territory to the south then known as Quito - and known today as Ecuador.

Having freed Venezuela and New Granada, he was determined to bring freedom to Quito and Peru. He set out from Bogota on December 13, 1821. The difficulties before him were like those of his great march over the Andes, and to make matters worse, right in his path was also the city of Pasto; whose inhabitants were fanatically loyal to the king of Spain. Bolivar was not to enter Quito until June 16, 1822 - and that was three weeks after Antonio Jose Sucre, his trusted Lieutenant had his triumphant victory over Quito. By this time Bolivar had to his credit, achievements that few men in history were ever able to attain. He had given liberty to his native land and two other countries as well!

Beyond lies Peru, where Spanish armies were to be faced and liberty brought to a land three times as large as those which he had already brought freedom. At Guayaquil, Bolivar met General Jose de San Martin, the liberator of Argentina and Chile and convinced San Martin to let him free Peru. His ambition, after all, was not only to liberate his native land but as much of South America as possible. With head held high and glory undimmed, Jose de San Martin departed from Peru, leaving her liberation to Simon Bolivar. On September 1, 1822, Bolivar started his southward march from Guayaquil to Peru - dreaming eagerly of dazzling glory. Except for an annoying return to Pasto, to battle anew the Pastusos, his trek to Peru was again resumed by sea, on August 7, 1823.

Simon Bolivar was not to taste victory at Ayacucho himself, because of problems with his Colombian Congress. They withdrew from him the special authority in civil and military affairs. Rage siezes his troops. On the eve of the greatest battle of the wars for South American independence, a battle that had to be fought without him, he turned over the supreme command to Sucre. Thereafter he departed for Lima. The battles of Ayacucho, most famous of all battles in South America, was won by Antonio Jose Sucre; a Venezuelan fighting many miles away from his native country and under the guidance of Simon Bolivar - another Venezuelan. Bolivar has now liberated four countries, his native Venezuela, New Granada, Quito and Peru. It does not seem to be enough, and soon he seeks the fifth crown to his life's work.

Bolivar convenes an assembly at Chuquisaca, the principal town in Southern Peru. They immediately declare that land a free and independent Republic with the title "BOLIVIA" - a word derived from the name of its Liberator. Thus, twenty years after vowing on the Monte Sacro in Rome to bring freedom to Spanish America, this restless son of Venezuela has earned the title, "Liberator of Venezuela, New Granada, Ecuador and Peru, and Founder of Bolivia!"

Years later, attempts were made on his life and as his health ebbed, Bolivar saw the lands to which he had brought independence relapsing into disunion and chaos. Simon Bolivar was a dying man. His life's work was a dying thing, and the hand of death was chilling him to the marrow. On the tenth of December 1830 - the last rites of the Roman Catholic Church were administered - to an old broken man at merely age forty-seven!

On December 17, 1830 he drew his last breath.
